NIT WARANGAL – HTWK LEIPZIG, GERMANY

INTERNATIONAL DOUBLE DEGREE PROGRAM

Study in India & Germany | Earn Two Degrees | Build a Global Future

The National Institute of Technology Warangal (NITW), India, in collaboration with HTWK Leipzig, Germany, proudly introduces an **International Double Degree Program** aimed at providing students with global academic exposure, international research opportunities, intercultural experience, and enhanced career prospects.

This unique program enables students to study at both institutions and graduate with degrees awarded by **NIT Warangal** and **HTWK Leipzig** both.

Programme Highlights

1. Students enrolled in the **M.Tech. in Engineering Structures** programme at NIT Warangal, irrespective of their mode of admission or nationality (CCMT / Self-sponsored / ICCR / Study in India), will be eligible to pursue their second year as an **M.Sc. in Structural Engineering** at HTWK Leipzig, Germany.
2. Students will be deputed to HTWK Leipzig based on their willingness to pursue the second year abroad, subject to satisfactory academic performance and successful completion of the first-year requirements at NIT Warangal. Such students should clearly give the option at the beginning of the First year
3. Upon successful completion of the programme requirements at both institutions, students will be awarded the following degrees:
    - **M.Tech. in Engineering Structures** – NIT Warangal, India
    - **M.Sc. in Structural Engineering** – HTWK Leipzig, Germany

---

Fee Structure

Component	NIT Warangal	HTWK Leipzig
Admission Responsibility	Admission process handled by NIT Warangal	—
Mode of Admission	CCMT / Self-sponsored / ICCR / Study in India	—
First-Year Fee	All students shall pay the applicable fee to NIT Warangal	No fee payable
Second-Year Fee	Only CCMT-admitted students shall pay tuition fee to NIT Warangal; self-sponsored students are exempted	Tuition fee waived
Other Expenses	—	Estimated living expenses: €11,904; Service fee: €6,950

Students are required to demonstrate the availability of approximately €18,854 before travelling to Germany to cover living expenses and associated service charges during their stay at HTWK Leipzig.

Important Notes

- There will be **no tuition fee** at HTWK Leipzig during the second year of study.
- The estimated living expenses cover accommodation and other day-to-day expenses in Germany.
- The service fee includes academic and administrative support provided to students at HTWK Leipzig.
- Students admitted through **CCMT** will continue to receive their **GATE scholarship** during their second year at HTWK Leipzig, as per the institute norms.
- At present, there is **no separate scholarship** specifically available for this programme. However, students may explore opportunities for **part-time jobs** during their stay in Germany, subject to local regulations. Students opting for this program are eligible for placements at NIT Warangal
- Upon successful graduation, students may stay in Germany for up to 18 months to explore and seek employment opportunities related to their field of study..
- Please note that there is no formal on-campus placement provision at HTWK Leipzig, including for German students. However, students enrolled in this programme may be permitted to participate in placement drives at NIT Warangal, subject to the eligibility criteria and preferences of the visiting companies.

German Language Support

For comfortable living in Leipzig and better opportunities for part-time employment, basic proficiency in the German language is highly beneficial.

To support students:

- NIT Warangal provides opportunities for students to learn **German language basics** during the first year of study.
- HTWK Leipzig also offers a **two-week complimentary German language course** upon arrival in Leipzig to help students improve their communication skills and adapt to the local environment.

Why Choose This Programme?

- ✔ Earn two internationally recognized degrees
- ✔ Experience world-class education in India and Germany
- ✔ Gain international research exposure
- ✔ Build global academic and professional networks
- ✔ Enhance career opportunities in higher studies and industry
- ✔ Experience multicultural learning and international mobility
